WHY SMOKE-FREE AIR IS RIGHT FOR MIDDLETON

Secondhand smoke kills.

Why should Middleton hospitality workers have to risk their lives to earn a living?

Secondhand smoke is a Class A carcinogen.

Shift after shift, Middleton hospitality professionals breathe in over 4,000 dangerous chemicals. Chemicals that cause heart disease, emphysema, and cancer.

- A strong smoke-free air policy is the right thing to do for Middleton hospitality professionals.
- Everyone has the right to breathe smoke-free air.

WHY SMOKE-FREE AIR IS RIGHT FOR FITCHBURG

Smoke-free indoor air is happening all over the United States, including right here in Wisconsin.

Secondhand smoke is estimated by the EPA to cause approximately 3,000 lung cancer deaths in nonsmokers each year. Employees exposed to secondhand smoke on the job are 34% more likely to get lung cancer.

Fitchburg's food service professionals don't always have a choice of where they can work and shouldn't have to be exposed to dangerous chemicals at work just to make a living. Secondhand smoke isn't just a nuisance. Secondhand smoke kills.

Creating smoke-free workplaces, including restaurants, bars and bowling alleys, is the right thing to do for Fitchburg food service and bar workers.

Everyone has the right to breathe smoke-free air.
